

## Why we think our exchange programme is important...

- We believe that our students get more independent and educated by staying with foreign families. They learn more about different cultures, traditions and countries, than they would living in a hotel like tourists.
- Our students get new friendships.
- As a bonus our students improve their linguistic skills by going abroad.

## School values...

We want our students to learn that they are a part of this world.

We want them to be responsible young people and teach them about different cultures.

We don't just want our students to see themselves only as Europeans, but as "World Citizens".

We want them to be tolerant, to accept and acknowledge the world and the people surrounding them.

We hope to teach them this by visiting other cultures/ countries and by inviting other cultures/ countries to visit us.

When we travel with our students, we prefer to stay in private homes instead of hotels. This way our students get closer to the people and the cultures we visit.
